

RIT
Host Employer Contractor Notification for
Permit-Required Confined Spaces

1. The work you will be performing at the Rochester Institute of Technology (RIT) involves permit –required confined space entry.
2. The entry into a permit –required confined space on RIT’s campus is only authorized through the use of your company’s Permit-Required Confined Space Program. Your Program is required to be in compliance with OSHA’s Permit Required Confined Space Standard – 1910.146.
3. The hazards of the permit-required confined space(s) involved with the work you will be performing at RIT include:

4. RIT requires the following precautions to be taken for your employees in or near the permit spaces where you will be working:
 - complete Confined Space Permit;
 - eliminate hazards;
 - wear required Personal Protective Equipment;
 - ensure appropriate rescue process;
 - notify the EH&S before entering a confined space;
 - inform RIT of any hazards confronted or created in permit spaces; and
 - notify Public Safety Departments prior to and post exit of confined space.
5. Contractors may not assign tasks to RIT employees related to this permit-required confined space entry.

By signing this notification you acknowledge your understanding that your work at RIT will involve entering permit-required confined space(s) and the hazards associated with entering this/these space(s).
