

1. Confined spaces are usually broken down into two groups:
 - a. *Non-Permit and Permit*
 - b. *Hazardous and non hazardous*
 - c. *Enterable and off limits*
 - d. *Atmospheric and Physical*

2. At what point is a person considered to have entered a confined space?
 - a. *When any part of the body enters/breaks the plane of the entryway*
 - b. *When the whole body is inside*
 - c. *When the head passes into the space*
 - d. *When his head and shoulders enter*

3. Which of the does NOT describe a permit-required confined space?
 - a. contains, or could contain a hazardous atmosphere
 - b. contains a material that could engulf the person entering into the space
 - c. has a inwardly converging wall or a floor that slopes downward and tapers to a small cross section.
 - d. contains any other recognized serious safety hazard
 - e. the space does not (or could not) contain hazards that could cause death or serious harm.

4. If you are able to eliminate all actual/potential hazards from outside the space and prior to entering, you will need to complete which form?
 - a. *Permit-required Confined Space Entry Permit*
 - b. *Atmospheric & Mechanical/Physical Hazard Elimination Certificate*
 - c. *Mechanical/Physical Hazard Eliminate Certificate*
 - d. *b or c depending on the hazards you were able to eliminate*

5. Ventilation is one way to make an area safer when toxic or flammable vapors are present?

True or false

6. An atmosphere containing less than ____% of oxygen is considered to be oxygen deficient.

- a. 11%
- b. 6%
- c. 19.5%
- d. 23.75%

7. Combustible gas meter readings need to remain at or below 10% LEL during entry.

True or false

8. Is an entry attendant (standby person) allowed to enter the confined space?

- a. Yes
- b. No
- c. *On limited occasions*
- d. *The attendant is already in the confined space*

9. When is a lifeline and harness required?

- a. *Always*
- b. *Only for horizontal permit-required confined spaces and/or when the depth of the confined space from entrance to lowest point is greater than 5 feet*
- c. *During initial investigation of the confined space*
- d. *None of the above*

10. When are entry rescues at RIT allowed by either RIT employees or contractors?

- a. *Always*
- b. *In permit-required confined spaces at all times*
- c. *When the depth of the confined space from entrance to lowest point is greater than 4 feet*
- d. *Entry rescues are only performed by the Henrietta Fire Department*
